REMARKS

This amendment, with the exception of the specification amendment to correct a typographical error, duplicates the Amendment Under 37 C.F.R. § 1.116 filed on September 16, 2005.

I. Formal Matters.

Claims 1-8, 10-13 and 15-35¹ are currently pending in this application, of which claims 19-35 are withdrawn from consideration. Claims 9 and 14 were previously cancelled. Applicant appreciates the Examiner's consideration of the Information Disclosure Statement submitted on February 10, 2005, as evidenced by his return of an initialed Form PTO/SB/08 A&B to the office of the undersigned.

II. 35 U.S.C. §102(b).

The Examiner rejects claims 1, 3, 5-9, 11, 12 and 15 as allegedly being anticipated by *Kato, et al.* (U.S. Patent Publication No. 2001/019131) ("*Kato*") under 35 U.S.C. §102(b). Applicant respectfully traverses this rejection in view of the following remarks.

The Examiner maintains the rejection of claim 1, as being anticipated by *Kato*. Responding specifically, to the previously submitted amendment to claim 1, the Examiner asserts

¹ Form PTOL-326 indicates that claims 1-13 and 15-35 are pending; however, claims <u>9</u> and 14 were cancelled via the Amendment filed May 20, 2005. Accordingly, the pending claims are 1-8, 10-13 and 15-35.

that *Kato* discloses a semiconductor layer of Ga/As/AlGaAs, wherein an AlGaAs layer is formed on GaAs layer (FOA page 4).

<u>Claim 1</u> requires a semiconductor layer of GaAs/AlGaAs, wherein a GaAs layer is formed on an AlGaAs layer. *Kato* at paragraph [0202] and FIG. 30, reference numbers 510 and 511, discloses AlGaAs formed on GaAs.

Kato fails to disclose a third semiconductor layer comprising a GaAs layer formed on said AlGaAs layer as required by claim 1. At least for this deficiency, the rejection of claim 1 as being anticipated by *Kato* under 35 U.S.C. §102(b) should be withdrawn.

<u>Claims 3, 5-9, 11, 12 and 15</u> are asserted as being patentable at least by virtue of their dependency upon an allowable claim.

III. Allowable Subject Matter.

The Examiner objects to claims 2, 4, 10, 13 and 16-18 as being dependent upon a rejected base claim, but indicates that the same would be allowable if rewritten in independent form, including all of the limitations of the base claim and any intervening claims.

<u>Claims 2, 4, 10, 13 and 16-18</u> are asserted as being in condition for allowance at least by virtue of their dependence upon an allowable claim.

In view of the foregoing amendments and remarks, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby earnestly solicited. If there are any points remaining in issue that the Examiner feels may be best resolved through a
